

An apparent edge that a broken agent also produces is a property of the period, not skill

Every agent flips sign: 28 of 30

1 collapsed DQN seed off-scale
(+2.94 to +4.34 bps, same direction)

worse than TWAP

cheaper than TWAP

● PPO agents (15 runs)

● DQN agents (15 runs; behaviourally collapsed)

---- TWAP

DQN is a diagnosed-broken learner
and it also flips to cheaper on the test period
